Palestine has existed for thousands of years, and its people have survived through the rise and fall of empires and wars. Palestinian land is in one of the oldest areas for human civilization and stretches East to West from the Jordan River to the Mediterranean Sea and North to South from Lebanon to the Sinai Peninsula. Palestinians come from diverse backgrounds and religions and form a unique and beautiful culture that flourishes at every opportunity. 1

The modern state of Israel was founded through an act of ethnic cleansing known to Palestinians as *The Nakba* or The Catastrophe, in which Israelis took up arms, mass murdered Palestinians, drove them from their homes, and chased the survivors into the West Bank and Gaza strip. During this time, 750,000 Palestinians were forced to become refugees and hundreds of towns were destroyed by Zionist Israelis. 2

Since *The Nakba*, Israel continues to exert their control over Palestine through operations such as The War of 1967, the ongoing destruction of Gaza, and illegal settlements and outposts in the West Bank.

In 2026, the United Nations revealed that the state of Israel has killed 70,000 Palestinians since Oct 7th, 2023, including 20,000 children who were intentionally targeted. 3

Palestine was first opened to Zionist colonialization by the British Empire through the Balfour Declaration in 1917. Zionists continued to ally themselves with European powers including the Nazis in 1933 by signing the Haavara Agreement, which forced Jewish deportation from Nazi occupied Europe to Palestine. In 1948, Zionists committed the Nakba. Western support for Zionism continues through organizations such as AIPAC, a Zionist lobbying group that buys financial, military, and public support for Zionism by corrupting our politicians by dark donations. 4

Christian Zionists, often modern American Christian Nationalists, support the state of Israel because they believe it will force the return of Jesus and the apocalypse, which will rapture them directly to Heaven.

Today, Israel wields American support despite the crimes committed by the state of Israel:

The Nakba
The Suez Crisis
The Kafr Qasim massacre
The Six Day War
The USS Liberty Incident
Occupation of South Lebanon
The murder of Rachel Corrie
The destruction Gaza
The Iran War 5

Apartheid – A governmental system that legalizes and mandates racial oppression.
Anti-Semitism – hatred or hostility towards Jewish people.
Anti-Zionism – Opposition towards the modern state of Israel, its foundation, crimes, and continued support.
Genocide - the partial or total destruction of a human group, intentionally committed.
Goy or Goyim – a slur used by Jewish supremacists to refer to any non-Jewish person.
War Crime – A violation of international law and includes genocide, targeting civilians, torture, mass murder and rape. 6

The Palestinian genocide must end. The suffering and slaughter must end. The destruction and desecration must end.

We must continue to speak, act, and demand accountability and compassion. There is something we can do, and as we act and make demands of our politicians and peers, we can change things for the better.

The Jewish people were safer before Israel, in Palestine. The world was safer before Israel, with Palestine.

Palestinians deserve food, safety, security, freedom, life, and justice. Free Palestine.
